

# How to Fold an 8-Page Zine

By Avery, Outright Vermont Youth Organizer 2023-24

So happy you have access to this zine!

Here's some quick directions on how to put it together. First, print the zine double sided on one sheet of paper. Below I've pasted a photo with directions on how to fold it to make an 8-page zine, as well as a helpful YouTube link if that's more your speed: [How to make an 8-page folding zine with Sticky Institute](#). You will need scissors.

cheers

Avery
